

## REEL WRAPPING

Durapak Reel Wrapper is a machine designed for packing rolls of paper, non-woven fabrics, film and similar products made in rolls. It is ideal for reel axial wrapping-across the cylindrical diameter then along the longitudinal axis. Durapak is the ideal wrapper for reel type products to achieve dust and moisture proof and enhanced packing effects for transport and storage. Options: pneumatic reel ejection system, or fully automatic conveyORIZED reel wrapper.

## FEATURES

- Powered pre-stretch film carriage, ratio 250%.
- Automatic wrapping according to pre-set parameters. Friendly user interface for setting wrap cycles and film tension.
- Auto height detection, turntable home position, forklift sockets for easy moving.
- Roller speed variable through an inverter.
- Dual limit switches on top & bottom to provide better safety protections.

## SALIENT FEATURES

Wrapping size	L(500-1500)mm, W(500-1600)mm.
Packing Speed	20-40 per hour.
Loading Weight	2000kg.
Turntable Speed	0-150rpm, speed variable, turntable soft start & soft stop
Carriage Speed	3m/min.
Working Mode	automatic
Power	3PH280VAC, 50/60Hz,20A, 3.4Kw.
