

## P.P ROLL

Made of 100% pure and environmental friendly PP raw material, our range of PP strappings are durable and have high tensile strength. Its high functional utility coupled with its feature of easy compatibility with auto strapping and semi-automatic machine has made it a popular item in the market.

To meet the varied packaging needs of our diverse customers we are making available high quality and durable packaging straps that can be used effectively for versatile packaging purposes. It is offered in different colors, lengths and widths as per the specification of the customer.

The range of fully automatic strapping rolls that we offer are as per the requirements of the customer. It is available in different lengths and sizes according to the customers demands. These strappings are suitable for on-line strapping of boxes, unitized packs, cartons and other allied products. We are also offering our clients with the provision of printed strapping rolls that are as per their requirement. The customized printing of logos and trademarks in desirable color combination gives an added benefit of required publicity to our customers.
